Cloud AI Engineer

With experience in Cloud Platforms, AI deployments, Linux administration, and Networking. Skilled in GCP, AWS, Gemini Enterprise, Model Armor, and Agent deployment, Docker, and infrastructure troubleshooting. Previously built large-scale networking automation tools during a Software Engineering internship at Meta. Seeking Cloud Administrator, AI Infrastructure, DevOps, or Platform Engineering roles.

Experience

TATA Consultancy Services (TCS) **Guadalajara, Jal**

Technical Support Engineer Jun 2026 - Current

- Provided technical support for enterprise Cloud and AI systems, driving resolution and improving service delivery metrics.
- Led coordination efforts within collaborative training and internal projects with teams of 7+ people.
- Developing hands-on experience with Google Cloud Platform while preparing for the **Google Associate Cloud Engineer certification** as well as learning and building expertise on **Gemini Enterprise** Deployment strategies.

Comex, HERSO **Acatlan de Juarez, Jal**

IT & Logistics Manager Jan 2024 - Jun 2026

- Managed Windows workstations, printers, and LAN network configurations for retail operations.
- Provided Tier 1 IT support across business operations.
- Maintained network infrastructure and endpoint configurations to ensure operational continuity.

Meta Platforms Inc **Menlo Park, CA**

Software Engineer Intern May 2022 - Aug 2022

- Designed and developed a Python automation tool for intent-based networking workflows.
- Optimized automation workflows using graph search algorithms, reducing initial network deployment time from several weeks to four days by implementing node simplification strategies.
- Validated network configurations against simulated datacenter topologies containing over **20,000 nodes**.
- Integrated unit and regression testing into CI/CD pipelines, improving deployment reliability and preventing regressions.

Projects

Stock Symbol Viewer **Guadalajara, Jal**

Next.js Fall 2025

- Built a responsive stock market dashboard using Next.js, React, and Tailwind CSS.
- Integrated Alpha Vantage and Logo.dev APIs for real-time financial data and company branding.
- Designed secure backend API routes with environment variable management.

Technical Skills

Cloud & Infrastructure: GCP, AWS, Docker, Linux Administration, Networking, Version Control
Automation & Scripting: Python, Bash, Terraform, Shell Scripting
AI: Gemini Enterprise, LLMs Deployment, Claude
Frontend: React, Next.js, Tailwind CSS
English: C2 **Spanish:** Native

Education

ITESO, Instituto Tecnológico y de Estudios Superiores de Occidente **Guadalajara, Jal**

Bachelor of Engineering in Computer Systems Engineering Aug 2018 - Dec 2023

Certifications

Google Associate Cloud Engineer*, Google Cloud Platform* *(Exam Scheduled Nov 5th)*
Gemini Enterprise Deployments, Certified Partner Specialist *Aug 2026*
